

Reapian Corporation
Biotechnology

Biotechnology **SOLUTIONS**

We offer cutting-edge biotechnology services that drive progress and turn scientific ideas into reality. This service involves collecting and analyzing data about individuals' physical conditions to improve health service delivery. The goal is to enhance healthcare efficiency and cost-effectiveness through innovative end-to-end digital technology solutions.

Advanced Testing services to identify and monitor various biomarkers

Comprehensive health AI diagnostic screening for early health issue detection

Research and SaaS Technology Development

Reapian Medical TRUNAD+

TRUNAD+ from Reapian Medical is highlighted for its ability to naturally elevate NAD+ levels in the body's cells, promoting youthful vigor and vitality^{1,2}. Here are some key points mentioned:

Cellular Repair

Enhances the body's natural ability to repair and regenerate cells².

Anti-Aging

Helps reduce signs of aging by increasing NAD+ levels, which are crucial for maintaining youthful cellular function².

Energy Boost

Provides more fuel and energy to cells, improving overall physical activity and cognitive function².

Antioxidant Support

Increases levels of Glutathione, the body's most important endogenous antioxidant, reducing inflammation and protecting against cellular damage².

These features make TRUNAD+ a comprehensive supplement for supporting long-term health and wellness.

Boost Lifelong Longevity

TRUNAD+

How does TRUNAD+ help improve life expectancy, and enhancing the overall quality of life

1. Cellular Repair and Longevity

NAD+ is essential for the function of sirtuins, a group of proteins that play a crucial role in cellular repair and longevity¹. Sirtuins help maintain the length of telomeres, the protective caps at the ends of chromosomes, which are associated with longer life³. Antioxidants protect cells from oxidative stress and damage, which can accelerate telomere shortening and cellular aging⁴.

2. Enhanced Energy Metabolism

NAD+ is vital for cellular respiration and energy production. It helps convert nutrients into energy, supporting high metabolic rates in tissues like the brain, heart, and muscles². Antioxidants improve mitochondrial function, reducing fatigue and enhancing overall energy levels².

3. Reduced Inflammation and Disease Prevention

NAD+ levels decline with age, leading to increased inflammation and a higher risk of age-related diseases². Boosting NAD+ can reduce chronic inflammation and support healthy aging². Antioxidants neutralize free radicals, reducing inflammation and protecting against diseases such as cardiovascular disease, diabetes, and cognitive decline⁴.

4. DNA Repair and Protection

NAD+ is required for the normal function of over 300 enzymes, including those involved in DNA repair¹. This helps maintain the integrity of the genome and prevents mutations that can lead to cancer and other diseases¹. Antioxidants protect DNA from oxidative damage, further supporting genomic stability and reducing the risk of age-related diseases⁴.

5. Improved Cognitive and Physical Function

NAD+ supports brain health by enhancing mitochondrial function and reducing neuroinflammation². This can improve cognitive function and reduce the risk of neurodegenerative diseases². Antioxidants support overall physical health by reducing oxidative stress and inflammation, leading to better physical performance and recovery⁴.

By maintaining higher NAD+ levels and strong antioxidant defenses, you can support cellular health, extend telomeres and improve both life expectancy and quality of life.

NUTRITION FACTS

Serving Size: 2 Capsules
Servings Per Container: 30

	Amount Per Serving	%RDA*
Zinc Citrate	15mg	100%
Vitamin D3	0.02mg	100%
Selenium	90mcg	160%
Vitamin B3	18mg	100%

NAD+ SUPERNUTRIENT COMPLEX

Quercetin 97%	110mg	-
Resveratrol 95%	110mg	-
Ursolic Acid	82.5mg	-
Bacopa Monnieri extract	100mg	-
Curcumin 97%	100mg	-
Pomegranate Ext. 90%	90mg	-
Berberine Sulfate	77mg	-
Silybum Marianum Ext.	50mg	-
Mucuna Pruriens Ext.	50mg	-
Tumeric	35mg	-

Proprietary Hydroxycinnamic Acids Complex with Patented CurCousin[®] Calebin A Extract

GABA, Sceletium, L-Tryptophan CurCousin [™] (98% Calebin A) [®]	120mg	-
--	-------	---

Other Ingredients: Biopiperine (2.5mg), Magnesium Stearate, Microcrystalline Cellulose

ALL-IN-ONE Supernutrient Life Extension Complex

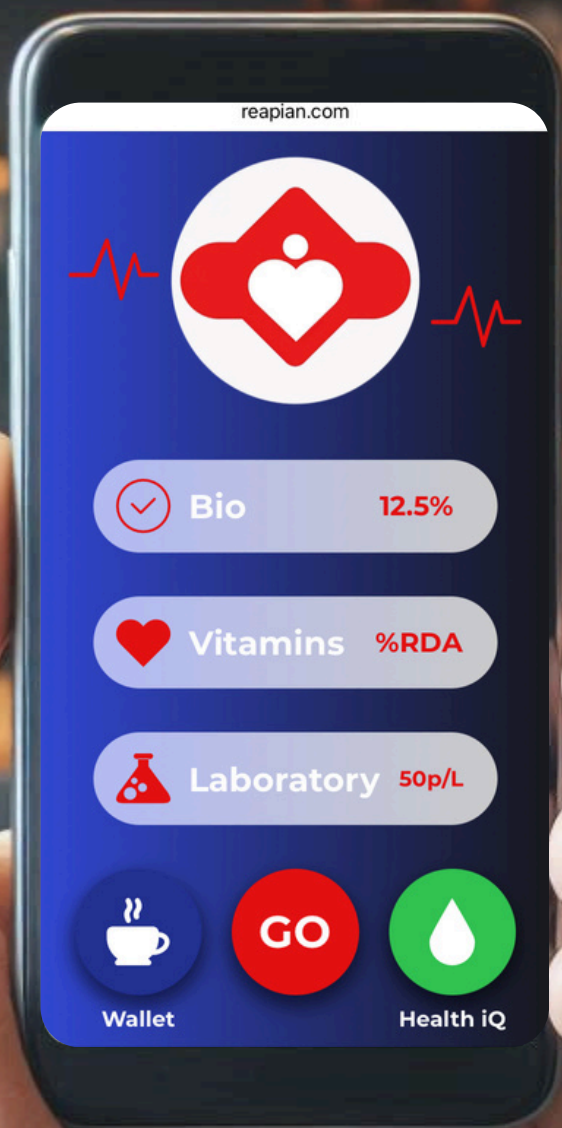

Scientifically Formulated
